

# World Entrepreneurs Day 2025

The Department of Commerce of B.A.M. Khalsa College, Garhshankar, in collaboration with the Institution's Innovation Council (IIC), successfully organized a special event to celebrate "World Entrepreneurs Day on 21st August, 2025". The objective of the program was to highlight the importance of entrepreneurship in shaping the economy, encouraging innovation, and promoting self-reliance among the youth.

The resource person for the session, Prof. Kanwar Kulwant Singh, delivered an insightful talk on the role of entrepreneurship in modern business practices, the challenges faced by startups, and the immense opportunities available for young innovators.

The session emphasized the values of creativity, leadership, and risk-taking that are essential for becoming a successful entrepreneur. Students were encouraged to think beyond conventional career choices and consider entrepreneurship as a viable and rewarding path. The event also included interactive discussions, where participants shared their innovative business ideas and engaged in healthy dialogue about the future of entrepreneurship in India.

The event was highly beneficial for the students as it not only motivated them but also broadened their perspective towards self-employment and innovation.

## Outcome of the Event:

- Students gained awareness about the importance of entrepreneurship.
- Participants were motivated to think creatively and develop business ideas.
- The session strengthened the vision of self-reliance and innovation among the youth.

Overall, the celebration of World Entrepreneurs Day at B.A.M. Khalsa College, Garhshankar proved to be a great success and served as an inspiration for students to become future leaders and job creators.

We express our sincere gratitude to Dr. Amandeep Heera, Principal, Babbar Akali Memorial Khalsa College, Garhshankar, for his constant encouragement and support in organizing this program. The faculty of the department of Commerce Prof. Gurpreet Singh Kalsi, Prof. Manmohan Singh, Prof. Deepti was also present.
